Hi Julie,

I am weeding through my emails this monring and came across this. Peter should have access to the Drug lab test system. Let me know if this is not the case. When the testing is complete, you will need to add the Drug Lab users to the SLI-Druglab-Clerk group to access the production system. The following users are in this network group. Can you go through the list and let me know which users need to be added or deleted?

Hi Kip,

I am sorry – it is OK to give Peter Piro access to the test system. I was confusing the test and production systems when I said I needed to fill out the access forms.

Thanks, Julie
